Director of Logistics

Chief, Planning Staff, OL

7 - DEC 1962

Procurement for Building 213

1. A copy of the Procurement Division Report, "Special Equipment and Furnishings for Building 213," dated 5 December 1962, was received by the Planning Staff. This report was examined in detail by [redacted] on the date of issue. With exception of eight items [redacted] accepted the information furnished on each action as being satisfactory for provision of an operational capability upon completion of the move to Building 213. This acceptance was, of course, based upon the assumption that these procurement actions would actually be accomplished as indicated. In the case of the eight exceptions, [redacted] asked that further information and/or expediting action be provided. The following paragraphs contain summaries of the checks made on these items.

Tables, Bookcases and Counters

On 7 December, the Vice President of the company stated that this order would be delivered by 1 February 1963. He alleges that he is still awaiting certain information on specifications. This problem is still being checked by Procurement Division and NPIC will be advised of the results. [Redacted] states that present equipment will be moved to Building 213 and used until this order is filled.)

STAT

Change in specifications has been a contributing factor in delaying delivery. [Redacted] NPIC, is in constant contact with the manufacturer and he has been informed that delivery of a complete system (approximately 1/3 of the total order) will be accomplished between 15 and 21 December to Building 213. This delivery will provide necessary equipment for a minimum operational capability. It is planned that the building contractor will install this equipment if it arrives by 27 December. GSA or other sources will be used if arrival is a later date. The remainder of this equipment is scheduled for delivery by 15 January.
